Associated Energy Systems

A housewarming presence for every season.

Our Mission Statement

Associated Energy Systems is a high-spirited sales company based on integrity and great customer service. As a market leader, we consistently distribute the best products and values to select customers in the home and hearth industries. Our business partnerships insure mutual profitability and excellence both personally and professionally.

Who We Are

Associated Energy Systems (AES) is a two-step, third generation distribution company providing a wide variety of high quality domestic and imported products to specialty retailers in the hearth and home industry.

What We Do

As a two-step distribution company our goal is to provide retailer establishments with quality products that deliver strong margins and above average returns.

We strive to offer a "One Stop Shopping" experience by conveniently offering a wide selection of products to our valued customers.

This Product Catalog outlines nearly 7,500 items available to the home & hearth retailer. In addition to traditional hearth products, AES provides a mix of distinctive outdoor products for the warmer seasons of the year.

" *AES will continue to be measured by exceeding customer expectations as we enter a new generation of retailing.* "

Kirk Newby
President

ASSOCIATED ENERGY SYSTEMS IS A WHOLESALE DISTRIBUTOR

Possession of this catalog does not constitute an offer to sell and does not qualify the holder the ability to purchase at wholesale. We only sell our products to retail dealers with storefront displays operating during normal business hours and to legitimate contractors involved in the trades we serve. Prior to any sale, we require a *Customer Information Form* and Resale Card (if applicable) to be signed and completed in full. Upon completion, a determination will be made whether to set up an account for the applicant.

Please remember we are a wholesale business and do not sell to the public. Our business is to serve you. *Please do not give our telephone number or catalog to your customer*. Our customer service representatives will do their best to have answers to your technical questions at their fingertips. Sometimes, however, your questions may require some research. Please understand that we may have to return your call at a later time to allow for accurate research and answers. Advice is given at no charge and should be used at your own risk. AES does not assume the liability that a particular product or service is suitable under all conditions, but rather represents the best use in our judgment according to the given circumstances.

WILL-CALL ORDERS

- It is our goal to have your order ready when you arrive.
- Depending on the season/activity level it may take up to 45 minutes from the time the order is placed to have it ready.
- For faster service, place your order ahead of time via phone or at order.aes4home.com and let us know of your planned arrival.
- Will call orders not picked up within 10 days are returned to stock.

DELIVERY

AES delivers to qualified dealers in some metropolitan areas. $40.00 delivery service charge.

PRICING

This catalog lists individual items priced at retail unless noted on a specific page. This helps to make the catalog a useful sales tool for you and your customers. Prices are subject to change without notice. We will make every effort to inform you when a manufacturer expects to increase prices during the year between publications of our catalog. Notices of price increases are sent in e-mails or mailings. To protect yourself, you should mark your catalog with any increases we inform you of. Please download current pricing at order.aes4home.com

STOCK STATUS

For information on items regularly stocked at our distribution center locations please visit order.aes4home.com or call AES Inside Sales for more information. Stock status of an item may change at any given time without notice.

2025-2026

s

Standard Terms
Shipping

SHIPPING

All freight is shipped FOB all AES Distribution Centers. Same-day shipping is employed whenever possible and priority is given to orders placed *before*: 1pm (WA, CO), 2pm (CA) and 11am (MN, TX). Orders placed *after* that time are subject to the warehouse staff's ability to ship that day. It is crucial that a staff member is available at your store to accept deliveries. There is a significant charge added by the carrier to handle COD shipments; shipments may be prepaid to save the service charge.

Goods are sent via the "best" method as determined by AES under the freight program. If a specific carrier is preferred at other times, it should be designated at the time the order is placed. All orders are shipped at your option and risk. Certain items are subject to damage, particularly insulated chimney pipe and related fittings. We recommend ordering these goods in quantities that can be palletized for auto freight or will-call.

Freight quotes are offered as a tool to dealers without a guarantee of pricing unless in writing from AES. AES is subject to residential fees, delivery location fees and other additional charges incurred from the carrier, and these will be passed on to the dealer as applicable.

AES cannot guarantee stock of inventory in every distribution center location. If an item is in stock at an alternate distribution center, we will do our best to keep freight charges to the dealer at a minimum by including the item on an inter-company stock transfer. However, any additional freight charges to bring or ship product from another distribution center will be the responsibility of the dealer.

Should special packaging be required by the carriers or requested for shipping, a minimum service charge of $7.00 per box will be applied to the invoice. A crating fee may apply for large diameter chimney pipe. Smaller steel grates may be shipped UPS, however, they require a $7.00 handling charge and you are responsible for full shipping charges.

Some items may not be recommended to ship via UPS, despite being sized for UPS approval. These items will be noted as such on your sales order confirmation. In these instances, AES will NOT ship the item under our freight program. If the dealer requests in writing, the item may ship via UPS. The dealer then accepts liability for the product and any damage and costs that may be incurred.

t

Standard Terms
Billing

COD OR OPEN ACCOUNT
Most customers pay COD and have the option of using Visa, Mastercard or Discover bank cards (3% CC processing fee) and business or cashier's checks. Open Account billing is available in most areas of the country to customers who can show a two year business history and are approved for credit. Approval takes one week from receipt of your completed application. A *Customer Information Form* is included at the end of this section for your convenience. Associated Energy Systems reserves the right to refuse credit to anyone.

TERMS OF SALE
Terms of sale are noted on each invoice, see (A) in the typical invoice below. Any applicable discounts are listed on the last lines of your invoice. Invoice due dates are calculated from date of shipping *(B)*. Exceptions are noted on each invoice. Payment is to be made by invoices as statements are not issued unless requested. Payments are only to be made with business or cashier's checks; personal checks will not be accepted. Past due and disputed accounts will be placed on COD.

PAYMENT REMITTANCE ADDRESS:
Checks made Payable to:
Associated Energy Systems
8621 South 180th Street
Kent, WA 98032

Orders will not be processed for any account past due. Any account 60 days past due will lose its credit privilege. When the account is paid in full, future orders will be shipped on a "check-with-order" basis. To re-establish credit, a new credit application and credit report will be required.

Invoices past due are subject to a finance charge not to exceed 1-1/2% per month. In addition to such late payment charges, costs and expenses associated with collection of past due amounts, including reasonable attorney's fees, shall be added to amounts past due. Credits are to be used toward future purchases as a deduction on invoices due. Associated Energy Systems reports customer credit information on a regular basis as a member of the Hearth Products Credit Association.

RETURNED CHECKS
All returned checks will incur a $40.00 service charge. Your account may be placed on a COD basis with prepayment required for a minimum of one year. Returned checks affect your credit rating.

ERRORS
Associated Energy Systems reserves the right to correct errors in quotes, orders, invoices or other documents.

Product Terms and Returns

CUSTOM AND SPECIAL ORDERS

Custom or special orders include custom cut, custom assembled, custom built, special order and orders of non-stock items. These items cannot be returned for credit.

To ensure accuracy, please have your order dimensions repeated back to you. Written confirmation is required. AES *cannot* accept returns or grant credit on custom cut or assembled products like Reliance, ACS or Graysen Outdoor. To protect all of us, we require an emailed order for these items. If the finished dimensions match our written invoice, any changes will be made at your expense.

Orders over $500.00 or new accounts may be required to prepay rather than sending COD and you will be asked to mail payment to AES before the order is placed.

Special orders of non-stock items must be in case quantities, if applicable. Once special orders for non-stock products have been placed with the manufacturer, cancellation is subject to the manufacturer. Custom, Special Orders and Non-Stock goods cannot be returned for credit.

PRODUCT RETURNS

In order for us to properly credit your account, all merchandise must be pre-approved with a Return Authorization Number prior to shipping back to AES.

To request a Return Authorization Number, contact AES, either online at <u>order.aes4home.com</u> or by telephone. Please have the invoice number available for the item originally purchased; this will expedite your credit. If approved, a Return Authorization Number will be assigned. Ship pre-approved merchandise to AES accompanied by the Return Authorization Number; product will not be accepted without an accompanying "R.A." number.

Return Authorizations are void at 60 days from the issue date if product has not been returned. All merchandise must be unused and in the original carton. Special Order, Non-Stock and Discontinued merchandise will *not* be accepted for return. Freight charges to return product are *not* the responsibility of AES.

Only those goods purchased within 60 days may be returned for credit or exchange.

Defective merchandise must be shipped back to the corporate headquarters in Kent regardless if the product originated from another distribution center location, and freight must be pre-paid. Notify AES of your intention of returning defective goods by filing a *Warranty Service Authorization Form* with us prior to shipping. You can find this form online at **order.aes4home.com**

Goods cannot be accepted at the AES distribution center without a Return Authorization Number attached and the proper information received.

Credit for returned merchandise should be issued within two weeks of the return provided the above conditions are met. All credits are issued to accounts toward future purchases. Shipment must be prepaid or it will be refused at the distribution center. Freight charges cannot be credited.

All returns are subject to a minimum 20% restocking fee.

About AES, Products, Index and Dealer Information

Standard Terms
Ordering Product & Understanding Pick Tickets

Errors can cost all of us time and money, not to mention the inconvenience to your customer. That is why we ask that you be prepared by having the following ready when placing an order.

CUSTOMER NUMBER

Customer numbers are extremely helpful to us. Although we do our best to remember all customer numbers, we occasionally forget one. Customer numbers expedite the process of getting all your account information at our fingertips and ready to process your order as efficiently as possible.

PURCHASE ORDER NUMBER

If your company uses purchase order numbers, please have the number ready.

SHIPPING INFORMATION

If there is a specific mode of shipping you would like us to use regarding a specific order or all orders, please indicate this information at the time you are placing each order.

AES ITEM NUMBERS

Product item numbers are extremely important in preventing errors. All items in this catalog have item numbers associated with them unless they are a special order. AES *cannot* take responsibility for incorrect orders when item numbers are not used.

CONFIRMATION INFORMATION

Please remind us to read your order back to you and confirm that all is correct. Product orders may be placed by calling AES Inside Sales, visiting our online orders website orders.aes4home.com, emailed (to your AES Inside Sales Rep.) or mailed. Orders will ship same day if placed by: 1pm (CO), 2pm (CA, WA) and 11am (MN, TX). Orders to be shipped via the AES truck should be placed the *day prior* to your scheduled delivery (same times).

UPON RECEIPT OF YOUR ORDER

Immediately upon receipt of your order, please help us help you by following these steps:

-**Before signing for product, inspect the shipment for damage or any sign of damage.**

-**Note anything suspected of damage on the BOL.**

-**Ask the driver if you may inspect items for damage.**

-**Report any damage to the freight company and then contact AES. Together we can work through the freight claim.**

-**Notification of errors in your order or shipping damage must be made to AES within 48 hours of receipt of merchandise.**

-**Provide pictures when applicable.**

SHORTAGES

If an item was not received, please check the Packing Slip or Pick Ticket. Are all of the items you ordered itemized on the individual lines? If not, please call AES and we will reship the missing items as soon as possible.

In the center of the pick ticket is written the number of boxes which were shipped. Check that against the number of boxes you actually received. If you did not receive all the boxes noted on the pick ticket, it may have gotten separated during shipment and may be delivered the following day. If you do not receive the missing box the next day, call AES and we will be happy to trace the missing product with the carrier. Please have your pick ticket available, we will need information off of it to process a trace on the missing box. You may also check the pick ticket for any special notes concerning your order that might explain why you did not receive all of your products.

If an item is on the pick ticket but you did not receive it, it's possible it was out of stock and was back ordered for you. Back orders with ETA's are noted on the order confirmation. You can verify this by looking at the quantity ordered column vs. the quantity shipped column. First, make sure the quantity ordered is correct. Then check the quantity shipped, it will most likely be zero. This confirms that we did not have stock on the item and it was automatically back ordered for you.

About AES, Products, Index and Dealer Information

Standard Terms
General Co-op Advertising Guidelines

CO-OP ADVERTISING PROGRAMS

Many of the manufacturers whose products we represent offer co-op advertising programs as well as various discounts and incentives for displaying those products on your showroom floor. We highly encourage you to take advantage of these programs in your marketing efforts as they can greatly reduce your advertising costs. The type of advertising that the fund will support varies from manufacturer to manufacturer but generally covers radio and television advertising, newspaper and magazine advertisements, printing and phone book listings. Space rental at Home Shows and Fairs also qualifies for co-op reimbursement in some cases. For specific coverages, or if you are ever in doubt, call the AES Data Processing Department for details.

Various product literature is also available in limited quantities to help with your marketing efforts. AES carries literature and/or other marketing materials for a majority of products that we sell. In most cases, there is no charge for literature, however, freight charges do apply. Promotional materials that have a cost associated with them usually qualify for co-op under the regular program guidelines. To obtain these marketing and point of purchase materials, contact the AES Inside Sales Department.

ADVERTISING GUIDELINES:

"Proof" of advertising varies from media to media. Agency creative or production fees are not eligible for claim through the co-op advertising fund, nor are shipping, handling or freight charges. ***Advertisements must prominently display the product name or logo in order to qualify for co-op reimbursement.*** Credit for ads featuring multiple brands may be divided according to the proportion of brand representation.

Print Advertisements - Please send two copies of your original invoice showing the total you paid for the ad and two copies of a "tear sheet" (usually provided by the newspaper or magazine) or an original copy of the ad. The product name and logo must be displayed prominently in all printed forms of print advertising including Yellow Pages directory ads.

Broadcast Advertisements - Please send two copies of your script and two copies of your original invoice from the station. Television broadcast advertisements must display the product name/logo and the product itself twice to qualify for co-op advertising credit. Radio broadcast advertisements must mention the product name twice in a 30-second spot or four times in a 60-second spot to qualify. Live broadcasts must also provide photos of displays in showroom on the day of live remote.

Fair and Home Show Participation - Please send pictures of your booth clearly showing ALL items on display at the show, as well as an itemized list and a copy of the paid invoice for the booth. Credit is issued based on the percentage of space and/or products compared to the total number of products displayed and available co-op funds. Reimbursement will be based on the rental cost of the booth space only.

CO-OP CLAIM SCHEDULE:

Credit for cooperative advertising claims MUST be mailed into AES in a timely manner according to the following schedule. Overdue claims will NOT be accepted for credit.

January-March Advertising	Claims must be filed by May 31.
April-June Advertising	Claims must be filed by August 31.
July-September Advertising	Claims must be filed by November 30.
October-December Advertising	Claims must be filed by February 28 of the following year.

TO OBTAIN ADVERTISING CREDIT:

Advertising claims must be submitted to AES, attention "Co-op Advertising", according to the claim schedule above. All claims must include a "Co-op Advertising Claim Form" and "proof" of advertising. All correspondence regarding co-op programs should be submitted to AES Correspondence Address and not the manufacturer. Co-op advertising credits are issued by AES to your account towards future purchases; cash refunds are not disbursed. Co-op claims can only be processed for current product.

Standard Terms
General Showroom Display Guidelines

DISPLAY PROGRAM

   To help offset the cost of the products displayed on your showroom floor, AES offers a showroom display program for many product lines. A portion of your cost or a flat rate credit may be offered if the showroom display requirements are met.

   In some cases, display credit may be granted for products shown at special events such as home shows, parade of homes and model homes, etc. For unusual situations such as these or other display requests outside of the manufacturer guidelines, contact your AES Outside Sales representative. Prior written approval must be obtained by AES before credit will be granted.

   For details on specific coverage and requirements, please reference the individual manufacturer program guidelines, or contact the AES Data Processing Department.

DISPLAY GUIDELINES
The following is a list of guidelines that must be met in order to receive display credit:

- The unit must be a current, up-to-date model
- The unit must be a burning model
- The unit must be shown in a complete, finished display
- The unit must be properly installed according to the owner's manual and building codes
- The dealer must commit to keeping the display on the showroom floor for a minimum of 12 months

Rules for display credit:
- Credit will be granted ONCE per model per year.
- A specific model and serial number qualifies for ONE showroom display credit only, regardless of the number of years it is on the showroom floor.
- Generally, multiple burning displays of the same model qualify for ONE showroom display credit only

 For example: TWO "Model A" fireplace units displayed in a showroom, one in black and the other in Porcelain Red, qualify for ONE showroom display credit only. *This may not apply to certain fireplaces or inserts, where various fascias and front options create a defined, unique visual appeal for consumers.*

TO OBTAIN SHOWROOM DISPLAY CREDIT

   Display claims must be submitted to AES, attention "Display." Requests must be accompanied by a "Display Program Claim Form" and a clear photo of the burning display model. Please submit one form and photo for each unit you are requesting credit.

   All correspondence regarding display programs should be submitted to AES correspondence address and not the manufacturer. Display credits are issued by AES to your account towards future purchases; cash refunds are not disbursed.

Warranty Programs

WARRANTY PROGRAMS

AES is proud to offer quality products from the industry's leading manufacturers. As a quality guarantee, most product lines represented in this catalog have warranty programs to support you in the rare case of a defective product. Programs vary between manufacturers, but generally offer credit for specific parts, and in some cases labor expense. A labor schedule including specific coverage for labor reimbursement is available upon request. The return or replacement of defective goods will be handled according to the instructions and procedures of manufacturers. Most warranties do not include shipping or labor. For more details on a particular product line, please contact AES Inside Sales.

Warranty credit requests should be sent to your Inside Sales Account Manager and must be accompanied by a completed *AES Warranty Service Authorization Form* (included in this section). Your account manager will then order replacement parts, if needed. Warranty credits are issued by AES to your account towards future purchases; cash refunds are not disbursed.

WARRANTIES ON DEFECTIVE GOODS

A brief summary of vendor warranties is listed below. Please refer to the vendor's brochure or call AES Inside Sales for more details on a particular product line. Warranty terms are subject to change without notice according to manufacturer policy.

Aluminum Chimney Liner:
15-year limited warranty to the original owner, no labor.

Condar ASV-90:
1-year limited warranty, no labor.

Dante Lighters and Valves:
1-year limited warranty, no labor.

Dimplex:
1-2 year warranty on most electric models

Dura-Vent (all types):
25-year limited to replacement, no labor, 5-year on caps and Dura-Black stove pipe.

Empire Products
1-year remote controls.
3-year vented parts.
5-year vent free parts and fireboxes.
10-year combustion chamber and glass.

Enervex Fans:
2-year limited warranty. 10-year against corrosion perforation.

GASAV-R Valves:
1-year replacement, no labor.

Gastite by Titeflex:
1-year replacement, no labor.

Graysen Woods Hearth Pads:
Limited lifetime on metal-wrapped hearth pads.

GreenFan:
2-year warranty, no labor.

Hargrove
Lifetime limited warranty logs
5-year limited warranty burners and grates
2-year limited warranty valves, pilots and other accessories
1-year limited warranty outdoor logs

HY-C Chimney Caps:
Stainless caps- lifetime warranty. Galvanized caps, no warranty.

Kingsman Gas Appliances:
1-year warranty on defective materials/workmanship (excludes light bulbs, gasket and paint).
Limited lifetime warranty - Heat exchanger, combustion chamber and burner.

Liberty Foundry:
3-year limited warranty.

Malco:
Lifetime limited warranty.

Modern Flames:
Within twenty-four months from the date of purchase of the appliance, parts will be supplied for repair or the product will be replaced free of charge. Repair or replacement is at the option of Modern Flames. Labor is covered for twelve months (12) from the date of purchase. This warranty does not cover consumable items such as bulbs and fuses which have a limited lifespan.

Nectre Wood Appliances:
10-year warranty

Panasonic Ductless Heat Pumps:
7-year warranty compressors
5-year warranty parts

R.H. Peterson Gas Inserts:
Lifetime warranty insert body and firebox
10-year warranty burner assemblies
5-year warranty ceramic glass panel (thermal breakage only)
5-year warranty gas logs
1-year warranty electronics and gas controls

R.H. Peterson Gas Logs:
Lifetime warranty on logs. 5-year warranty on burners.
1-year warranty on valves and controls.

"Reliance" Liner by American Hearth Products:
10-year limited warranty on parts, no labor.

Robertshaw:
5-year warranty on wall thermostats and carbon monoxide alarms. 1-year limited warranty on other parts.

Skytech Remote Controls:
5-year limited warranty on remote units. 1-year warranty on valve kits. 2-year warranty on fan kits.

True North Appliances:
3-year firebox, castings and glass
1-year parts (gas valves, electrical components, switches, gaskets, paint, bricks, baffle tubes and manifold, burn pot and iner.

US Fireplace Products:
Lifetime warranty

ZFlex:
Lifetime warranty to the original purchaser

Standard Terms
Dealer Service Support Policy

Dealer Service Support Policy

AES and our Appliance Vendor will provide our dealers technical training to ensure safe installation and professional service on our products. This training will be provided at the time you are set up as a dealer, at the time we introduce new products or at special training events conducted from time to time. We will provide this training to your installation and service staff at your place of business or an AES facility at a mutually agreeable time. It is your responsibility to get your staff to this training as needed and make the scheduling commitment so they can receive this training. It is the dealers responsibility to provide their service and installation personnel with the tools, installation and testing equipment needed to provide safe installation and professional service on hearth appliances.

The training we provide is product specific and does not replace the general level of training required for safe installation and professional service that can only be obtained through HPBA "Hearth" supported certification training that provides a general level of understanding of installation and service practices for our industry's equipment.

Service Support
Our vendors, for the most part, will **not** provide technical support directly to dealers and, for sure, **not** to consumers. AES will provide technical support on the products we sell to our dealers or their personnel, but we will **not** provide that support to consumers. Each consumer contact will be directed back to the closest authorized dealer. In the event that a dealer is no longer in business to service a product, AES Inside Sales will assist a consumer on how to contact another servicing dealer in the area.

AES does not sell appliances over the internet, nor do we support our dealers selling appliances over the internet. A consumer should only be buying our appliances from a local servicing authorized dealer who is approved and has training and support to sell and service our products. If a consumer buys a product outside of a dealer's service area or through a non-approved channel, or if they do the installation themselves, they have made the decision to provide their own service and technical support. AES does not support any sales channel other than our approved dealer list.

AES Phone Support
Dealers should contact any AES inside sales personnel Monday - Friday between the hours of 8:00 – 5:00 to gain technical support on products we sell. All AES sales staff receive technical training from our vendors and most are already NFI certified (the rest have been working to become "Hearth Certified"). We are committed to providing industry leading support to our dealers.

Prior to providing technical support on the phone our inside sales staff will require the dealer to have on hand the unit serial number along with the product model number and installation specific's. We request the dealer have an internet/smart phone connection at the time they call in, if at all possible, or at a minimum to have on hand a copy of the owner's manual for the product. Experience has shown that a picture or other information which can be quickly shared over the internet can aid in effective and accurate communication for both sides of the phone call. It is our goal to review technical issues/questions while the tech is on the jobsite and hopefully avoid any further call backs.

2025-2026

aa

Standard Terms

Dealer Service Support Policy

AES Personnel Support

AES personnel will not make field service calls without a qualified dealer representative or the <u>paid</u> designated installing contractor who did the installation or service. AES personnel will not make field calls at the direction of consumers or to any consumer who bought a product other than through our approved dealer list. Further, AES personnel will not make a field service call on any appliance that was installed by anyone other than our dealer or their designated installer.

Field Service Call Procedure

The products we sell will require field service. This will be required either as a normal service call or as a warranty service. The following is the process by which AES will make calls with a dealer to a product installed in a consumer's home.

1) First Service Call on any appliance is expected to be made by the selling dealer. If the dealer is not able to affect a successful result or diagnosis, the dealer should contact AES Inside Sales staff while at the consumer's home in an attempt to get support needed to resolve the service issue at this time.

2) Second Service Call for the same appliance on the same issue is expected to be made by the selling dealer. Prior to the second call – which is required because the repair could not be affected during the first call – the dealer service personnel should contact AES Inside Sales staff. Obviously, it does not make sense to go out to the home a second time without having additional information to support a more thorough and successful second service call. If the repair is not affected at the time of the second service call – do not leave the site! Call AES Inside Sales again for support on the installation. Attempt to talk with the same inside sales person for support as you did prior.

3) Third Service Call – If AES Inside Sales have been involved in the first two service calls and have obtained complete information from the dealer – which may include photo's – and a successful repair has not been achieved, then AES Inside Sales will direct the AES Outside Territory manager to make a service call at the installation site at the soonest possible time. Dealer service personnel will be required to be on site with the AES staff. It is the dealer's responsibility to have their own testing and calibration equipment during this service call.

WARRANTY REQUEST FORM

AES ISSUED RA#: _____

- Warranty process for all brands goes as follows: Replacement order is placed and billed to dealer, warranty RA is written, you send back defective part back to AES when requested and/or send pictures when applicable, we file the warranty with the factory for credit, we receive approval/credit from factory, then the dealer receives the warranty credit from AES.
- To insure you receive an accurate and expedited credit or replacement part, please fill in all necessary information below.
- Warranty parts not found to be defective will be returned back to the dealer at the dealer's expense.

** Warranties will not be processed until AES is provided with the following information. **

STEP #1 - DEALER INFORMATION		
Dealer Name:	Dealer Account #:	Phone:
City: State:	Contact:	Email:

STEP #2 - CONSUMER INFORMATION		
Consumer Name:	Consumer Address:	Consumer Phone Number:

STEP #3 - Technical Data (Symptoms/Readings/Diagnosis)

IMPORTANT Be clear on your description. "It's broken" or "it doesn't work" does not give us enough information to file the warranty with the manufacturer. Please include the following information: 1) Description of problem. 2) Troubleshooting steps taken. 3) Is the problem solved? **Photos are required for any visible damage/defects. Please send pictures to your Inside Sales Rep.**

<u>WARRANTY:</u> DIAGNOSIS/SOLUTIONS/RESULTS:

STEP #4 - Product Information

Model #:	Serial#:	Dealer PO or AES Invoice:	Date Installed:	Date Serviced:

Qty	Part# Used for Repair:	Description:

Manufacturer Labor Requested? ☐ Yes ☐ No   Requesting _____ Hours _____ Miles

Preapproved? ☐ Yes ☐ No   By_____

STEP #5 - Send Part or Credit? *MUST CHECK ONE BOX*

☐ Send Replacement (Have not ordered, place order now).   Replacement Order # _____

☐ Credit Only (Already ordered, and need credit only).   Replacement Invoice # _____

DATE: _____

PRODUCT RETURN REQUEST FORM

- Email the completed form to your Inside Sales Rep.
- A Return Authorization must be issued by Inside Sales before product is sent back to AES.
- Inside Sales will email the RA back. You must include a copy of the RA when returning product to AES.
- Returns will NOT be accepted if it's a special order item, non-stock item, item is not in original packaging, original packaging is written on or if it is not in new condition.
- Items must be returned within 90 days from purchase. Anything over 90 days requires management approval.
- Returned products are subject to a 20% minimum restocking fee.
- Units and Barbeques require Management Approval to be returned and are subject to a $125 restock fee per unit.
- **To insure you receive an accurate and expedited credit and replacement part, please fill all necessary information below.**

M & G Dura-Vent
DuraPlus 2100° F Chimney System

DuraVent
Member of 🔗 M&G Group

2025-2026

DuraPlus 2100°F Chimney System - The innovative triple-wall chimney system from Simpson Dura-Vent, offering superior performance and ease of installation. DuraPlus is the leader in triple-wall chimney for wood, oil, gas and coal-fired appliances. DuraPlus Chimney features a patented firesafe design and:

- Chimney components for every conceivable installation requirement
- Twist-lock pipe and fittings for ease of installation
- Lightweight for easy handling
- .016" 430 stainless steel inner liner
- Galvanized steel outer wall (or optional stainless steel)
- U.L. listed to 103 HT Standard
- 25-year warranty

The DuraPlus 2100° F Chimney System, offered in 6", 7"*, and 8" sizes, is designed for use with gravity appliances that have been tested and listed for use with a 2100° HT chimney system, including wood stoves, fireplaces, oil, gas and coal fired appliances. Allow a minimum of 2" airspace clearance to combustibles.

A DuraPlus chimney STAYS COOL ON THE OUTSIDE at all times to protect the building during normal stove operation. It STAYS HOT ON THE INSIDE to discourage the deposit of creosote, while providing the correct draft for stove performance. Two layers of insulation (ceramic blanket plus air space) keep the DuraPlus cool outside to protect the building, and hot inside to boost stove efficiency during normal stove operation. If a red hot creosote fire does erupt, the patented DuraPlus FIRESAFE DESIGN serves to protect both the chimney and the building.

DuraPlus liner is designed to not warp or buckle. Special end ring suspension at each joint flexes to allow the inner liner to expand lengthwise when hot. In addition, ceramic insulating blanket is flexible and compressible, so the liner can expand outward when hot.

Chimney Lengths - DuraPlus chimney pipe in 6", 9" and 12" lengths have a 1" insulating blanket. The 24" and 36" lengths have a 1/2" blanket. To calculate the installed length of DuraPlus or Dura-Chimney pipe lengths, subtract 1-1/2" from each length of chimney pipe.

Elbows - Use elbows to offset obstructions such as rafters, ridgepoles or joists. 6", 7" and 8" diameters may have two pairs of elbows, if needed. Larger diameters are restricted to one pair of offsets. Offsets greater than 30° are not allowed. Elbows are not adjustable. DuraPlus elbows have a 1" insulating blanket.

Tee with Cap - The tee can be used to start chimneys indoors (inside a chase) or outdoors. The tee clean-out cap is removable for easy chimney cleaning or inspection. Wall straps, a wall thimble and a tee support must be installed with the tee as directed. DuraPlus tees have 1" insulating blanket. Ventilation for chimney must be drawn from outdoors.

Tee Support Bracket - Use to support the tee, the tee bracket is suspended from a wall. Safety shelf protects against creosote leaks. Supports up to 35' of DuraPlus Chimney or 50' of DCR Chimney.

Wall Thimble - The wall thimble adjusts from 4 3/4" to 7 3/4" and fits between standard wall studs. The telescoping pieces can be separated and an extension installed to accommodate thicker walls. The interior trim ring is painted black. The wall thimble must be installed with an appropriate length of chimney pipe through the wall horizontally.

Wood Chimney & Pipe

M & G Dura-Vent
Dura/Plus 2100° F Chimney System

DuraVent
Member of ⚛ M&G Group

Square Ceiling Support Box and Trim Collar - Square locking ceiling support boxes are painted black. A 1 1/2" wide trim collar is included with all square support boxes. Supports up to 35' of DuraPlus Chimney or 50' of DCR or DC Chimney.

Round Ceiling Support Box - Round locking support boxes are painted black. 1 1/2" trim is included. Supports up to 35' of DuraPlus Chimney or 50' of DCR Chimney.

Flat Ceiling Support Box - Flat ceiling support boxes are not painted. Can be painted with high temperature paint. They are designed for installation in flat ceilings only. One-inch wide trim is attached. Supports up to 35' of DuraPlus Chimney or 50' of DCR or DC Chimney.

Firestop Radiation Shield - Install where a chimney passes through a floor or ceiling without a support box. Centers pipe and provides proper clearance.

Close Clearance Shield - Used when chimney passes through the roof opening with less than the normal 2" minimum clearance to roof trusses or rafters. Pipe must be centered within close clearance shield.

Attic Insulation Shield - Attic insulation shields consist of two parts: collar and base. This universal attic insulation shield must be used in all installations that pass through an attic to prevent insulation and debris from accumulating near the chimney.

Roof Flashings - Select the proper flashing based on the pitch of the roof. Note: a 6/12 pitch has a vertical rise of 6 inches over a horizontal distance of 12 inches. Steep roof flashings are available to accommodate pitches up to 24/12.

Chimney Caps - Chimney caps are made from stainless steel and include spark arrestor screens.

Storm Collars - The storm collar slips around the pipe just above the flashing. Seal the inner edge to the chimney with a non-hardening 500° high temperature sealant.

Extended Roof Bracket - Use to support the chimney when it extends more than 4 feet above the roof. Install with 3/4" thin-wall galvanized electrical conduit. Conduit not included.

Wall Strap - For use in interior or exterior installations to support and stabilize the chimney while assuring a 2" clearance. Wall straps are required every four feet on exterior of building only.

Snap-Lock Adapter - Snaps into the ceiling support box and extends down to fit inside most stovepipe for a drip-free connection to a DuraPlus Chimney system. Painted black. Not a U.L. listed product.

Elbow Strap - Elbow straps are required between two elbows to support the weight of the chimney.

Base Plate - Zero-clearance fireplace adapter. The base plate is to be used on a zero-clearance fireplace when using DuraPlus directly off the unit.

Masonry Anchor Plate - Provides a base for beginning the installation on the top of a masonry fireplace. Factory built chimney's low weight reduces footing requirements and ensures fastest installation time.

Transition Anchor Plate - Provides easy installation of Duraliner and DuraPlus combinations, as well as DuraPlus installation on masonry fireplaces and chimneys.

M & G Dura-Vent
DVL Close Clearance Connector

DuraVent
Member of ⚭ M&G Group

2025 - 2026

DVL double-wall stovepipe is engineered for enhanced safety and superior stove performance. The DVL double-wall air insulated design is made to reduce clearance to combustibles. DVL improves stove performance by maintaining high flue gas temperatures for a strong, steady draft.

- Available in sizes 6", 7"* and 8" diameters
- Durable .012" type 430 stainless steel inner liner
- Drip-free design, no cutting or crimping
- 6" clearance to walls, 8" clearance to ceilings
- U.L. listed to 2100° F
- 25-year warranty

DVL Close Clearance Connector
Double wall close clearance connector stovepipe is available in 6", 7"* and 8" diameters for installation with minimum clearance to combustibles (6" to walls, 8" to ceilings). DVL is constructed with a stainless steel inner wall for long lasting performance and safety. For mobile home installations, follow the appliance manufacturer's installation instructions.

DVL Adjustable Length
Used whenever fixed lengths of DVL are not appropriate because of interior obstructions. There is approximately 3" of adjustment on the 6" length and 7" of adjustment on the 12" length of pipe. All pieces must have a minimum 1" overlap with all connecting pipe.

DVL Telescoping Length
Allows one piece installation from stove to ceiling support box with close clearance connector. Available in 29"-48" and 40"-68" extensions. Easy to install; no cutting required.

DVL Close Clearance Adapter
This stainless steel close clearance adapter is the only part that will allow for a connection from double wall DVL to DuraPlus for a through-the-wall or ceiling support installation. Pipe cannot attach properly without this part.

DVL Oval to Round Adapter
Used on appliances with oval flue collars and allows adaption to round pipe.

DVL Increaser
To increase from a smaller appliance flue outlet to larger diameter chimney . Must be used with a close clearance adapter when connecting to the support box.

DVL Adapter Section
Connects DVL pipe to the appliance flue outlet. The damper is optional. To be used as a stove adapter.

DVL Elbows
Offsets obstructions as needed and angles DVL pipe towards the chimney's thimble or the appliance flue outlet. Elbows are not adjustable. 90° elbow not recommended for rear exit appliances.

DVL Tee
Tee comes with convenient clean-out cap. For use with rear exit appliances.

Wood Chimney & Pipe

M & G Dura-Vent
Dura-Black Single Wall Black Pipe

DuraVent
Member of ☘ M&G Group

Dura-Black single-wall, 24-gauge drip free black stovepipe features die-formed end fittings and adjustable lengths that eliminate cutting and crimping. 18" clearance to combustibles required for single wall stovepipe. Warranted for a period of five years from installation.

Single Wall Length
To calculate the installed length, subtract 1-1/4" from the "B" measurement (reference the Simpson Dura-Vent brochure at the end of the section). "B" length is overall height of the pipe length.

Single Wall Length

Slip Connector
Connects Dura-Black pipe to ceiling support box or wall thimble. Allows 10 inches of adjustment for an easy, drip-free installation without cutting the pipe. Required for proper connection of pipe.

Elbows
For offsetting Dura-Black stovepipe. Elbows are not adjustable.

Tee
Use the Dura-Black tee for a drip-free 90° turn with rear exit appliances. Includes clean-out cap.

Tee

Stovetop Adapter
Suitable for appliance flue outlets from the size specified to 1/8" smaller inside diameter.

Double Skirted Stovetop Adapter
Adapts appliance flue outlets from the size specified to 3/8" smaller inside diameter.

Increaser
To increase from smaller appliance flue outlet to a larger diameter chimney.

90° Elbow

Trim Collar
Use to trim pipe at ceiling support box or wall thimble.

Oval to Round Adapter
The bottom end ovals easily to connect to the oval flue outlet of the appliance.

Damper Section
A short pipe section with the damper conveniently pre-installed.

6"-8" Slip Increaser
Adapts from 6" Dura-Black to 8" Dura/Plus neatly at the ceiling support box or wall thimble. No slip connector needed.

M & G Dura-Vent

DuraChimney II Double Wall Chimney

DuraChimney II is a double-wall, air-cooled chimney system for use with masonry fireplaces which burn wood, oil, coal or gas. DuraChimney II is designed to stay cool on the outside, to provide a hot draft on the inside and to provide a fire-safe design that protects both the chimney and the building. The double-wall, air-cooled design allows the chimney to expand both radially and lengthwise under high temperatures.

- Available in 10", 12", 14" and 16" diameters.
- Durable .016" type 430 stainless steel liner.
- Unitized pipe sections. No field assembly of inners and outers required
- 2" clearance to combustibles.
- Limited lifetime warranty.
- UL Listed to UL 103 and ULC S604 standards.

Single Wall Length - To calculate the installed length, subtract 1-1/2" from the "B" measurement (reference the Simpson Dura-Vent brochure at the end of the section). "B" length is overall height of the pipe length.

Elbows - For offsetting DuraChimney II stovepipe. Offsets greater than 30˚ are not allowed. Elbows are not adjustable.

Supplementary Support - Use to help support weight of DuraChimney II. Supports a maximum of 25' of chimney. Use additional Supplementary Supports as needed.

Stabilizer - Use to hold DuraChimney II in place. Use inside chase enclosures to stabilize chimney installation. Refer to fireplace manufacturer for additional requirements on use of Stablilizer.

Anchor Plate - Use as a starter section for DuraChimney II. Bolts directly to fireplace outlet.

Anchor Plate with Damper - Use as a starter section for DuraChimney II. Bolts directly to fireplace outlet. Damper section allows chimney to be closed when fireplace is not in use. Includes chain and lintel hook.

Firestop - Use in ceiling/floor penetrations above fireplace. Firestop is not required when passing through the roof. Fits on underside of ceiling.

Attic Insulation Shield - Use in all installations that pass through an attic to prevent insulation and debris from accumulating near the chimney, unless chimney is enclosed through attic. Consists of two parts - collar and base.

Roof Radiation Shield - Required at top of chase enclosure or where chimney passes through the roof. Roof Radiation Shield is not required if chimney is unenclosed in the attic. Four plates (included) make up on shield.

Chase Top Flashing - Encloses the top of a chase while providing a ventilation air passage to the chase. Includes spacer clips.

Chimney Cap - Used to terminate chimney system. Required on all installations. Slides over previous section of DuraChimney II pipe to allow for chimney height adjustment. Include spark arrestor.

Storm Collar - Use to help prevent rain from entering chase. Use with a flashing and chimney cap.

Wall Strap - Use to support and to stabilize the chimney in interior or exterior installations to ensure a 2" clearance. Wall Straps are required every 8' on exterior of building only.

Single Wall Pipe Baffles

AMERICAN
HEARTH PRODUCTS
Reliance Liner

Single Wall Pipe Baffles

A 24-gauge, matte black baffle covering half the circumference of a single wall flue. Screw-mounted to the flue with welded brackets which maintain 1" air space between the flue and the baffle. Other lengths, multiple and single wall baffles available by special order; contact AES Inside Sales for pricing. To determine the reduced clearance with the pipe baffle, please consult the appliance manufacturer.

HY-C Chimney Caps
Big Top Multi-Flue

HY-C Company, Inc.

100% 304-stainless steel welded construction chimney cap with 24-gauge removable hood for easy cleaning and scalloped corners and rolled edges that add style and safety. 18-gauge, 3/4" expanded metal mesh, keeps out rain, birds, animals and debris. Standard mesh height is 8". Also features 24-gauge 304 stainless steel base flanges for extra strength in mounting. Tapmark masonry screw anchor attaches to chimney crown. Screws and adhesive are included. Models come fully assembled unless noted "KD", indicating Knocked Down. Lifetime warranty.

Mesh meeting California regulations (18-gauge, 5/8" 100% 304 expanded stainless steel) is available by special order only, please call AES Inside Sales for more information.

HY-C Chimney Caps
Draft King Single Flue Chimney Covers

HY-C Company, Inc.

An 8" high chimney cap, designed for outside mounting to provide 95% free air space. The free air space creates better draft and the durable construction provides strength to resist the elements. 18-gauge 3/4" expanded mesh is turned inward at the base to allow cover to rest firmly on the tile which closes any opening around the tile. Mesh meeting California regulations (18-gauge, 5/8" 100% 304 expanded stainless steel) is available by special order only, please call AES Inside Sales for more information. Available in all stainless steel or black painted galvanized steel.

Stainless Steel

Constructed of 304 stainless steel, a 24-gauge single piece stainless hood with roll formed edges and 16-gauge base for extra strength. Stainless steel slotted hex-head bolts. Lifetime warranty.

Craftsmanship.

Chimney Pots can also be used to cover an unsightly metal fireplace termination or used in lieu of a factory rain cap or spark arrestor *(check with your local ordinance for proper application with pre-fabricated fireplace systems)*. Chimney pots are a popular selection for rain caps and spark arrestors for masonry chimneys as well.

Pellet Vent, Liner & Custom Parts

M & G Dura-Vent
PelletVent Pro™

DuraVent
Member of ☘ M&G Group

Dura-Vent PelletVent Pro provides a combination of both rigid and flexible pipe and accessories to provide the homeowner with a wide range of installation options, including:

- Horizontal through the wall installations
- Vertical through the ceiling and roof installations
- A-frame cathedral ceiling installations
- Chimney relining for pellet stove inserts

Dura-Vent PelletVent Pro is tested and listed to U.L. Standard 641, Type L and designed for venting pellet stoves, pellet inserts, pellet heaters and oil fired appliances.

Dura-Vent PelletVent Pro features:

- Heavy duty construction for safe, trouble-free performance.
- 100% rivet construction, no spot weld corrosion.
- Laser Welded inside and out - for a sleek appearance and a silicone free installation. No silicone means a faster install and vent that is easy to take apart.
- 1" Clearance to combustibles for a low profile wall thimble.
- Swivel horizontal termination cap - for ultimate control of fly ash.
- Double wall, air insulated design with twist-lock connections on pipe and fittings.
- .012" 430 stainless steel inner liner resists heat and corrosive flue gases, .018" galvalume steel outer wall.
- Pipe joints sealed with ceramic gaskets, fittings sealed with high temperature silicone to prevent fly ash leakage.
- Heavy duty stainless flex for chimney relining.
- Pellet Vent is U.L. and U.L.C. listed.
- 25-year warranty.

Liner Accessories by American Hearth
Pellet Vent Liner Systems

Reliance Liner

2025-2026

American Hearth is the leading Northwest supplier of pellet liner systems providing AES with custom relining components since 1972. Because of the unique and long lasting relationship between the two companies, we are able to stock the most extensive variety of reline components for both freestanding and pellet insert retrofitting and new installations into an existing chimney or fireplace.

All lining components are made of 24-gauge 304 stainless steel welded seam construction and are tested to UL 1777 standards.

Reliance Liner also offers Masonry Liner Systems for woodburning appliances. With over 30 years of experience with chimney relines, American Hearth Products "Reliance Liner" has developed a reputation in the Northwest for fast and capable fabrication of almost any custom element of a chimney reline system.

For assistance building your next reline system call AES Inside Sales.

Stainless Steel Heavy Flex Liner & Fittings

Z-FLEX
CHIMNEY & VENTING SOLUTIONS

Heavy Flex Stainless Steel Chimney Liner

Made of .019 thick 304L stainless steel. 4 ply, continuous metal, fully interlocked, strip-wound construction provides extra strength and durability for demanding installations where the liner may be pulled and stressed more than normal. 25' rolls cannot ship via U.P.S.

Item No.	Description	Retail	Stocked
ZFLAF525	(ZFMHLXX0525) 5" x 25' Roll Stainless Steel Flex Liner	$1,366.00	N

Dura-Blanket
Liner Insulation

High heat reflecting insulation for wrapping liner. Protects against heat penetration and contains heat within liner. A lightweight and resilient material. Excellent corrosion resistance and thermal stability. Low thermal conductivity and heat storage. Made of carborundum with increased fiber dimensions preventing airborne fibers. Carborundum Insulfrax Durablanket conforms to requirements for "Incombustible Materials" 1832°F continuous use limit.

Liner Accessories by American Hearth
"Zero-Zero" Masonry Liner System

AMERICAN HEARTH PRODUCTS
Reliance Liner

2025-2026

Specifically Designed for Zero Clearance Applications
This premium liner application eliminates worries from questionable chimney construction or clearances and provides the ultimate assurance of a safe chimney. Recommended for unlined masonry chimneys or where clearances are of concern. Tested and listed to U.L. 1777 standards. Make sure your installation meets these tough "Zero-Zero" safety standards by using this fully listed system. The components below can be safely installed with zero clearance to the inner masonry and zero clearance to exterior combustibles despite a jagged or uneven chimney. Used only for zero clearance applications.

Termination Cap Options
The Zero-Zero application uses standard termination cap options, flex, liner and components for all items not listed on this page. Use oversize flat plate (listed on page 305) : for 6" system, use 7" flat plate; for 7" system, use 8" flat plate.

"Zero-Zero" Storm Collars

Adjustable shield that fits snugly onto the pipe redirecting the water away from the entire system. The band is wider in the Zero-Zero system in order to completely cover the air basket and insure protection of the overall system. For zero clearance applications.

Item No.	Description	Retail	Stocked
RM600SC	6" "Zero-Zero" Storm Collar	$40.00	Y

"Zero-Zero" Air Baskets

Allows fresh cool air to facilitate draft around the pipe cooling entire system for added safety.

Item No.	Description	Retail	Stocked
RM00AB6	6" "Zero-Zero" Air Basket	$67.00	N
RM00AB7	7" "Zero-Zero" Air Basket	67.00	N
RM00AB8	8" "Zero-Zero" Air Basket	67.00	N

Star Clamps

Provides additional insurance for supporting the liner in case of an overheating situation and centers the pipe inside the chimney.

RM6ST	6" Star Clamp	$33.00	N

"Zero-Zero" Insulation and Attachment Options

WC12258CW	Foil Faced Ceramic Wool	$399.99	Y
	2300° 2' x 25' roll, 1/2" thickness, priced per roll. See page 306 for more information

Wood Liner & Components

M & G Dura-Vent
6" & 8" DuraLiner

DuraVent
Member of ⬡ M&G Group

DuraLiner ensures safe and efficient venting of heating appliances, while protecting the masonry chimney from the damaging effects of flue gas. It is the only factory-insulated product with zero/zero clearance for high heat wood-burning appliances. No need to uncoil flex, insulate a majority of the pipe, or protect the insulation when installing. A smooth inner means less creosote buildup.

6" & 8" DuraLiner

M & G Dura-Vent
DirectVent Pro

DuraVent
Member of M&G Group

Re-Designed, Re-Engineered
With so many innovations, DirectVent GS transformed to DirectVent Pro, offering stunning design, Engineered Excellence® and utilizing state-of-the art manufacturing.

Re-Designed Appearance...All black pipe lengths and elbows feature laser-welded seams for a sleek finish. Low profile locks and no hems or beads allow for a beautiful product that looks elegant in any interior.

Re-Engineered for Excellence...Tighter inner connections, no gaskets or sealants required*. All DirectVent Pro components are compatible with DirectVent GS stock, except for the new DirectVent Pro Pipe Extensions.
*Unless specified by the appliance manufacturer.

Remarkable
Engineered Excellence® with innovation and style...DirectVent Pro... specified exclusively by nearly every major stove and fireplace manufacturer in the U.S. and Canada.

• Unitized construction eliminates field assembly of inner and outer flues.

• Twist-lock connections provide quick, positive, fastener-free installation.

• Precision pipe and fittings have been engineered for optimum appliance performance. You can rely on DirectVent Pro to provide for safe, dependable performance from your direct vent stove or fireplace.

• Laboratory tested and listed with each appliance.

• Engineered to ensure optimum appliance performance in both vertical and horizontal vent configurations.

• Wind, rain and thermal performance tested for safe, dependable operation.

• To eliminate flame lift-off and burnouts, DirectVent Pro features precision fittings that are factory leak tested. In most cases, Dura-Vent twist-lock adapters are built-in by the appliance manufacturer to ensure a leak-proof connection between the vent and the appliance.

Designer Installations Made Easy
Simpson Dura-Vent offers the most complete product line in the industry to meet every installation need. Easy to install side-wall installations offer exciting new design options. From traditional through-the-roof installations, to fireplace inserts and wood stove conversions, DirectVent Pro has the technology and component parts to make every installation a success.

Applications
DirectVent Pro has been designed for use with direct vent stoves, heaters and fireplaces. DirectVent Pro, in combination with the gas appliance, has been tested and listed as a decorative gas appliance system, or as a direct vent heater system by a major testing agency such as U.L., AGA, CGA, Warnock Hersey or Omni.

Limited Lifetime warranty

Item No.	Description	Pkg.	Wt.	Retail	Stocked
SD46DVAKHA	Horizontal Termination Kit A	1	16 lbs.	$624.93	Y
Includes: 90° Black Elbow (46DVAE90B), Wall Thimble Cover (46DVADC), 24" Length Black (46DVA24B) & 8-1/2" Pipe Extension Black (46DVA08AB). *Cap Not Included.*					
SD46DVAKHC	Horizontal Termination Kit P	1	14 lbs.	738.36	Y
Includes: 90° Black Elbow (46DVAE90B), Wall Thimble (46DVAWT), Wall Thimble Cover (46DVADC), 24" Length Black (46DVA24B) & 8-1/2" Pipe Extension Black (46DVA08AB). *Cap and Adjuster Not Included.*					

Chimney Liner Flex Extensions

Flexible 2 ply .010" aluminum compressed lengths. 3" flex used with co-linear system.

Item No.	Description	Pkg.	Wt.	Retail	Stocked
SD3DFA25	3" x 25' Flex	1	7 lbs.	$233.89	Y
SD3DFA35	3" x 35' Flex	1	9 lbs.	295.44	Y

Chimney Liner Termination Kit

Chimney Liner Termination Kit connects co-linear flexible vent to co-axial termination. Kit includes termination connector and flashing. Direct Vent GS 4" x 6-5/8" termination caps, flex lengths and appliance connector are sold separately. Must be tested and listed for each appliance. Refer to your stove manufacturer's installation instructions for specifics.

Item No.	Description	Pkg.	Wt.	Retail	Stocked
SD46DVAGK	Direct Vent Chimney Liner Termination Kit	1	6 lbs.	$344.78	Y
	Includes: Termination Connector, Flashing.				

Complete Co-Linear Kits

For use with inserts with 3" co-linear intake and exhaust ports. Kits include Intake and Exhaust runs, Flashing, Flex Connector and High-Wind or Prairie Cap.

Item No.	Description	Pkg.	Wt.	Retail	Stocked
SD46DVACL33	3" x 35' Co-Linear Kit w/High Wind Cap	1	22 lbs.	$700.81	Y
SD46DVACL34	3" x 35' (Air Intake) and 4" x 25' (Exhaust) Co-Linear Kit w/High Wind Cap	1	22 lbs.	700.81	Y
SD46DVACL33P	3" x 35' Co-Linear Kit w/Prairie Cap	1	22 lbs.	773.31	Y
SD46DVACL34P	3" x 35' Intake, 4" x 35' Exhaust Co-Linear Kit w/Prairie Cap	1	22 lbs.	773.31	Y

Co-Linear Flex Connectors

For use with a flex connector on inserts with 3" co-linear intake and exhaust ports.

Item No.	Description	Pkg.	Wt.	Retail	Stocked
SD46DVAADF	Co-linear Flex Connector	2	1 lb.	$75.55	Y

Co-axial to Co-linear Appliance Connector

Co-Linear Adapter Connector for stoves with 4" x 6-5/8" co-axial outlets. Refer to appliance manufacturer's installation instructions. Uses 3" Flex.

Masonry Chimney Conversion Kits

Class A Chimney Masonry Conversion Kit for 4" x 6-5/8" Direct Vent gas stoves. Change out existing wood burning stoves to direct vent gas stoves.

Item No.	Description	Pkg.	Wt.	Retail	Stocked
SD46DVAKMC	Masonry Conversion Kit	1	7 lbs.	$514.16	Y

Kit includes: Cap Adapter, 18" x 18" flashing, round ceiling support/wall thimble cover and retro connector. Purchase 4" flex extension and termination cap separately.

| SD46DVAKCT | Masonry Conversion Kit | 1 | 3 lbs. | 198.74 | Y |

Kit includes: Cap Adapter and 18" x 18" flashing.
Masonry Conversion Kit

Class A Chimney Conversion Kits

Class A Chimney Conversion Kit for 4" x 6-5/8" Direct Vent gas stoves. Change out existing woodburning stoves to direct vent gas stoves though existing class A chimney system. Chimney Conversion Kits include cap adapter and a retro connector collar. Purchase 4" flex extension and termination cap separately.

Item No.	Description	Pkg.	Wt.	Retail	Stocked
SD46DVAKCA	Conversion Kit A	1	3 lbs.	$426.70	Y

Fits the following chimneys or others with a 6" I.D. and up to 8" O.D.: Metalbestos, Pro-Jet, Hart & Cooley, ICC, Security, Jackes-Evans.

| SD46DVAKCB | Conversion Kit B | 1 | 3 lbs. | 426.70 | Y |

Fits the following chimneys or others with 6-8" I.D. and up to 10" O.D.: Simpson Dura-Vent (6" I.D.), Jackes-Evans (7" & 8"I.D.), Air-Jet (6" I.D.), Hart & Cooley (7" & 8" I.D.), ICC (7"& 8" I.D.), Metal-Fab (6" & 7" I.D.), Pro-Jet (7" & 8" I.D.), American Metal (6" & 7" I.D.), Security (8" I.D.), Metalbestos (7" & 8" I.D.).

| SD46DVAKCC | Conversion Kit C | 1 | 3 lbs. | 426.70 | Y |

Fits the following chimneys or others with 7-8" I.D. and up to 12" O.D.: Simpson Dura-Vent (7" & 8" I.D.). Air-Jet (8" I.D.), American Metals (8" I.D.), Metal-Fab (8" I.D.).

M & G Dura-Vent
DirectVent Pro Concentric Flex

NEW
DuraVent
Member of ⚙ M&G Group

Versatility and Simplicity
Concentric Flex can be used as a cost-effective alternative to 45-degree elbows when offsetting around an obstacle such as a stud, joint or truss. It allows you to put the vent EXACTLY where you need it, and in a hurry. Using this approach can speed up installation time, save on parts, and help to minimize the number of joints between pipe sections.

We have all been there. The customer wants the fireplace positioned in such a way that the outlet always seems to line up with an obstacle – like a wall stud, electrical wiring, or vent stack for plumbing. No problem! DirectVent Pro Concentric Flex allows you to quickly adjust the positioning of the vent to hit the desired stud space in any up & out or cross-corner installation. The same is true for a joist or truss in vertical installations.

Single-offset? Double-offset? Simply adjust a length of DVP Concentric Flex to suit the application.

Key Features and Benefits
Fully compatible with DirectVent Pro. This gives you the best of both worlds - the robust, long-lasting, professional reputation of our rigid system combined with the infinite convenience of

concentric flex when you need it, where you need it.

Twist-Lock Connection
Our concentric flex features the same twist-lock you already know. This makes assembly easy on fireplaces that are already equipped with a twist-lock outlet. No need for messy sealants or screws here. This also allows you to use concentric flex in combination with other DirectVent Pro parts you already have in the truck or on the shelf.

Factory-Installed Spacer
DVP Concentric Flex comes with a factory-installed spacer. This eliminates the fear associated with hot-spots and compromised clearances-to-combustibles. With field-assembled product, spacers can be overlooked or misplaced at the wrong intervals. Spacers can also slip out of place. Not only is our spacer firmly attached, it runs continuously through each length from one end to the other. This results in a consistent air gap between the inner flue and outer air intake.

Unique Overlapping Collar Design
Unlike systems offered by competitors, there is no need to improvise when attempting to attach flex on the downstream end of the vent. Simply twist-lock the pipe together as you normally would, then pull the outer flex up into place, and fasten the two overlapping collars together using supplied screws. Quick, simple, and easy with no compromises.

Three Convenient Lengths
DirectVent Pro Concentric Flex is available in 3-foot, 5-foot, and 10-foot lengths for use with DirectVent Pro 46DVA and 58DVA venting. Each length ships from the factory compressed within a compact box. The smaller packaging takes up less space on the shelf and in the truck during transport. At the jobsite, the inner and outer lengths are easily stretched independently to your exact requirements.

Construction
The inner and outer flex on DirectVent Pro Concentric Flex is made with two-ply aluminum. It is designed to withstand the high heat of exhaust emitted from any approved gas fireplace. The outer's role is to conduct combustion air and is robust enough to meet all impact and puncture test requirements.

Gastite
Underground Gas Piping & FlashShield Flexible Gas Piping

Underground Gas Piping

A complete "stab-on" polyethylene gas piping system for underground applications which eliminates corrosive threats associated with metallic piping. This system is designed, tested and certified for direct burial and has the lowest installation costs compared to other underground gas piping materials. No rigid pipe cutting, threading and welding.
No protective sleeve required. No heat welding typically associated with other PE piping systems.
Minimal tools required and assembles in minutes with permasert stab-on fittings and continuous lengths of flexible piping.

Item Code	Item Name	Ship Weight	Retail Price	Stocked
Polyethylene Tubing				
Sold in 250' coils only				
TFPE8250	PE Tubing, 1/2" CTS	1 lbs.	$ 275.00	N

FlashShield by Gastite
FlashShield Flexible Gas Piping

FlashShield by Gastite - Flexible Gas Piping

FlashShield™ is CSA design certified to ANSI LC1-2005 for "Fuel Gas Piping Systems Using Corrugated Stainless Steel Tubing (CSST)." CSST supplies natural gas or liquefied petroleum gas (LP gas) to appliances. Simple hand tools such as tubing cutters, wrenches and utility knives are all that are needed to work with the FlashShield™ components. FlashShield™ is a reliable, cost-effective system that can be installed in all modes of construction: residential, commercial and industrial; new construction and retrofits.
*All FlashShield (FS) Fittings and Tees can be used with Yellow Gastite CSST.

Item Code	Item Name	Ship Weight	Retail Price	Stocked

Gas Venting

Condar
Air Supply Ventilator

Every home needs fresh air. Whether to provide make-up air for a stove or fireplace, helping to prevent negative pressure drafting problems, or to improve the quality of the indoor environment. Condar's Air Supply Ventilator is the smart way to provide your home with filtered, draft-free fresh air. Requires no electricity and only a 4" hole in the wall. Simple to use and install. Made of tough paintable ABS polymer plastic. Comes complete with two tubes, dust filter and hardware pack. Dimensions: Interior cover 6" x 6" x 2", Exterior grille 5.5" x 5.5". Tube dimensions - see pg. 806 description. Three-year limited warranty.

Item No.	Size	Pkg.	Wt.	Retail	Stocked

RH Peterson
Real Fyre™ Gas Logs

realfyre PREMIUM GAS LOGS

2025-2026

The RH Peterson Company provides the highest possible degree of durability which is why Associated Energy Systems has been offering Real Fyre™ products to its customers for over 20 years.

Real Fyre™ logs are formulated from kiln-fired ceramics, superior refractories and the best expanded shales and aggregates. Their durability has been proven for over 50 years of use in American homes. The high temperatures of a burning fireplace pose no challenge to the beauty, strength and durability of Real Fyre™ Gas Logs. They meet nationally recognized standards and earn approval of local and national building code authorities throughout America.

Real Fyre™ Gas Logs duplicate the detailed bark pattern and texture of real wood through a unique molding system. Knot holes, peeled bark, forked branches and other natural enhancements add realistic appearance. These logs are then colored by an exclusive immersion/filtration system. Many of the logs are then hand painted, detailed or accented to provide the most realistic looking logs available. Real Fyre™ logs are sized and matched to create a balanced natural wood stack that works with Real Fyre™ burner systems to provide an authentic wood fire appearance. Yet, there is more to Real Fyre™ Gas Logs than their beauty.

Because the logs are manufactured with non-conductive ceramic, they reflect more radiant heat off their surface. This helps the gas burner system burn more efficiently. The heat chamber, a development of the Peterson Company, consistently radiates more BTU's of heat into the room without the hot and cold zones normally created by the varying size of a wood fire. The heat chamber also adds to the warmth and Real Fyre™ Gas Logs promote cleaner burning.

Instant on/off finger tip control provides immediate flame at the simple turn of the valve. No more messy ashes to clean up, no storing of dirty firewood and no more dangerous flying sparks with Real Fyre™ Logs. Creosote build-up in the chimney, a common cause of fires, is also eliminated by the clean burning gas fuel.

realfyre PREMIUM GAS LOGS

Real Fyre™ Gas Logs feature a Lifetime Warranty. Vented Burner Assemblies feature a 5-year Warranty.

Showroom Display Materials

Showcase your Peterson Real Fyre™ Gas Logs and the important accessories with these attractive, 3-Tier Gas Log Displays. Made of sturdy steel construction, 66"H x 32"W x 17"D assembled. Log shelves support sets up to 24" wide, have a 1" lip to prevent sand, embers and lava granules from spilling on to your floor. The shelves are also just right for displaying a small amount of hearth accessory stock.

New Products for 2025

Charred Cinder Collection (Pg. 5)

Headlining the Real Fyre Premier Series gas log sets, the new **Charred Cinder Collection** offers a dramatic fire presentation highlighting exposed embers, décor chunks and unique burnt detailing complemented with black embers. The model CNDO oak version leads the way with birch (CNDB) and split oak (CNDS) units following later this Spring. Available in three sizes (18,24,30), the Charred Cinder models are compatible with G4, G45 and G46 burners in natural gas and propane versions.

Flame Enhanced Logs (Pg. 5)

Building on the popularity of the optional Flame Enhancer Kit accessory that boosts flame and radiant heat, the new model **FE Flame Enhanced** Gas log sets include all the components for an enhanced set-up in one SKU. Multiple sizes available in five popular log styles (CHD, CHMJ, SDP, RDP, CHMBW), each set includes the Flame Enhancer Kit components (ceramic fiber-infused back log, aluminized steel panel and black embers) along with the regular logs for that size. These combinations offer more economical ways to provide flame enhanced performance in a new installation.

Measuring your fireplace for a Real Fyre Vented gas log set.
❶ Front width (in inches)

❷ Back width (in inches)

❸ Depth (in inches)

❹ Height (in inches)

❺ Gas stub location

- How far does the gas stub extend into the firebox?
- What is the distance from the gas stub to the firebox floor?

For special sizing requirements exclusive to each burner system, refer to its particular Owner's Manual.

New Products for 2025
G23 Fyre Spheres Burner System (Pg. 3)

Designed to showcase the modern look of Fyre Spheres in a vent-free setting, the new G23 burner system comes in popular 18" and 24" sizes with a choice of ODS equipped and ANSI certified millivolt or electronic remote control.

The 4" diameter model US4 Carrera Marble, Epic Black and Graystone spheres are designed specially for pinned placement on the burner pan. Choose natural gas or propane models.
ODG15 Outdoor Only Burner System (Pg. 5)

The new ODG15 is the first Real Fyre ventless burner system designed for outdoor installation only. Certified to the ANSI Z21.97/CSA 2.41 outdoor decorative gas appliance standard, the ODG15 is offered in 24/30" size with remote operated electronic controls (-02 or -2VT) and your choice of Foothill Oak or Foothill Split Oak log sets. The burner pan is constructed of stainless steel and comes in either natural gas or propane versions.

Measuring your fireplace for a Real Fyre Vent-Free gas log set.
1 **Front width** (in inches)

2 **Back width** (in inches)

3 **Depth** (in inches)

4 **Height** (in inches)

5 **Gas stub location**
  • How far does the gas stub extend into the firebox?
  • What is the distance from the gas stub to the firebox floor?

For special sizing requirements exclusive to each burner system, refer to its particular Owner's Manual.

HY-C
Flame Genie

HY-C Company, Inc.

Flame Genie Pellet Fire Pit					
Enjoy a unique Fire Pit experience without the smoke, sparks and cleanup hassels. The Flame Genie produces maximum flame utilizing Gravitational Afterburner System which also minimizes smoke. The delightful flame pattern can be enjoyed for hours. Flame Genie burns clean and easy to handle wood pellets, producing minimal ash, and requires little cleanup.					
Item No.	*Description*	*Pkg.*	*Wt.*	*Retail*	*Stocked*
HCFG16	Flame Genie Fire Pit 16" - Painted Black	1	14 lbs.	$109.00	Y

HCFGT19	Flame Genie Tote for 19" Model	1		15.99	Y

1. Add pellets up to fill line.

2. Light w/gelled firestarter, fatwood or other solid starter.

3. Wait a few minutes, sit back and enjoy the unique burn.

4. Add small amounts of pellets at a time when re-filling to minimize smothering of the flame/smoke.
HY-C
Log Racks

Log Racks					
Add 2x4's of any length to customize the storage you need. Keeps firewood off the ground protecting it from rot and insects, and allows it to dry easily for safer burning. Heavy-duty construction, black powder-coated finish. Vinyl cover opens with a front flap allowing easy access to firewood.

Magical Color Cones for Wood Fires

Natural pine cones processed with paraffin wax create dancing blue and green flames when tossed into a wood burning fire. Each cone lasts for 6-8 minutes. Not for use in gas fireplaces.

Item No.	Description	Wt.	Retail	Stocked
GW10100	Large Bag	3 lbs.	$26.99	LTSD
GW10101	Bamboo Basket w/Color Cones	-	23.29	LTSD

Pine Cone Firestarters

A special firestarter consisting of a loblolly pine cone and wick, set into a special wax formula base shaped like a large muffin. Place one of these firestarters on a bottom log of your fire and light the wick. Your fire will be safely and easily started. Cones burn for up to 30 minutes each. Not for use in gas fireplaces or charcoal cooking fires.

Item No.	Description	Pcs. per Carton	Wt.	Retail	Stocked
GW10274	Mesh Bag	12	5 lbs.	$30.29	LTSD

Genuine Georgia Fatwood Firestarter

Fatwood is resin-rich heartwood found in decaying pine stumps in the forests of Georgia. When used as kindling, firewood can be started with a single match. Fatwood is a completely natural product that adds a delightful aroma to the hearth.

Item No	Description	Wt	Retail	Stocked

CONDAR

Half Kettle Humidifier

A decorative and useful touch for the hearth. Helping to supply much needed moisture to dry winter air, this half-kettle fits snugly on the narrow ledge of any fireplace insert as it measures only 4" deep and holds over 2 quarts of water. The Half Kettle is crafted of hand-cast aluminum rather than cheaper cast-iron, and will never rust or corrode. Packaged in a sturdy gift box.

Item No.	Description	Pkg.	Wt.	Retail	Stocked
CDHKB	Classic Black Half Kettle, Brass Handle	6	4 lbs.	$212.99	Y
CDHKBC	Half Kettle Steamer, Matte Black with Chrome handle			212.99	N
CDHKBL	Half Kettle Steamer, Alumina Blue with Chrome Handle			212.99	Y

Stove Scents

Add wonderful aromas to the air by adding 4-6 drops of Stove Scents to a stovetop steamer and let the steam gently perfume the air. For gas, oil or pellet stoves, simply apply a few drops directly on the clay Stove Stone and lay on top of the appliance. Oils are one fluid ounce per bottle. Sold in case quantities only.

CDSC	Counter Display	1	6 lbs.	$292.99	LTSD
	Contains 4 bottles of Carolina Breeze, Serenade, Winter Garland and Spice Cake and 8 scent stones; refillable.

Fireplace Grates

by **HYC** Company, Inc.

2025-2026

Cast Iron Franklin Fireplace Grates

3-year warranty. The Franklin Collection fireplace grates are one piece, flat bottom, basket style grates for use in small fireplaces and Franklin stoves. The heavy-duty cast iron construction keeps logs where they belong so your fire burns neatly, safely and more efficiently and allows air to reach the logs from all angles.

Item No.	Height	Width	Depth	Back	Wt.	Retail	Stocked
HCG22BX	5-1/4"	22"	12"	18-1/2"	20 lbs.	$220.99	Y

Gas Vent Stovepipe Paint (250°F)					
Forrest's Gas Vent Pipe Paint has been formulated for gloss and color with temperature resistance up to 250°F. The colors are designed to colorize gas vent pipes to match the porcelain finish on gas stoves in the color indicated on the label. This is a single step coating. No other top coating for gloss is required. The purpose is to offer an alternative to black or galvanized gas stove vent pipe. 12 oz. can.

FP1A80Y010	Paint-Prep Degreaser Solvent, 12.oz. Aerosol	31956800017	13 lbs.	$ 15.79	Y
Multi-purpose cleaner for use prior to painting or priming to clean surface of dirt and oils.					
Firestarter					
An alcohol based material, formulated in a highly flammable gel so it stays where you put it. For use in pellet, coal or woodburning stoves, fireplaces, barbecues or campfires. This firestarter can be used inside or outside the house. Does NOT contain methyl alcohol. Doesn't produce toxic gases and won't affect catalytic converter.					
FP80M400B32	Gelled Firestarter, 32 oz.	N/A	1 lbs.	$ 18.79	Y
FP80M400B16	Gelled Firestarter, 16 oz.	31956804169	1 lbs.	$ 12.99	Y

FP80M400B4	Gelled Firestarter, 4 oz.	31956804046	1 lbs.	$ 5.79	Y
Glass Cleaner					
Stove Bright Glass Cleaner is a concentrated liquid specially formulated to cut through baked on carbon and creosote deposits. This spray-on cleaner for tempered glass, porcelain and baked on enamel is a non-streaking formula which will quickly remove layers of smoke stains from your wood, coal or pellet burning stoves. Also, Stove Bright Glass Cleaner is an excellent choice for preparing your wood stove for painting and a good general cleaner.					
FP03M00316	Thick Glass Cleaner, 16 oz.	31956222055	1.5 lbs.	$ 11.29	Y
Gas Appliance Glass Cleaner					
Stove Bright Gas Stove & Fireplace Glass Cleaner is designed for use on gas appliance glass doors to remove most white deposits that develop. Leaves a film that resists the white build-up during future appliance use. Formulated with a thick, creamy, no scratch consistency that is designed to cling. Apply to glass and allow to stand 3-5 minutes before buffing with a soft cloth to restore clarity. Frequent use will prevent hard baked on deposits. Always wear rubber gloves before applying or removing. Immediately discard all cleaning rags and newspaper into the garbage. Glass must be free of all cleaning agent materials before lighting fire.					
FP03M1014	Gas Appliance Glass Cleaner, 4.oz.	31956031022	N/A	$ 7.79	Y
FP03M1018	Gas Appliance Glass Cleaner, 8.oz.	31956031015	N/A	$ 11.49	Y

Air Supply Ventilator

Every home needs fresh air. Whether to provide make-up air for a stove or fireplace, helping to prevent negative pressure drafting problems or to improve the quality of the indoor environment. Condar's Air Supply Ventilator is the smart way to provide your home with filtered, draft-free fresh air. Requires no electricity and only a 4" hole in the wall. Simple to use and install. Made of tough paintable ABS polymer plastic. Comes complete with two tubes, dust filter and hardware pack. Dimensions: Interior cover 6" x 6" x 2". Exterior grille 5.5" x 5.5". Tube dimensions 4" diameter x 6" long. Three-year limited warranty.
Item No.	Description	Wt.	Retail	Stocked
CDASV90	Air Supply Ventilator	2 lbs.	$129.99	Y

HY-C
Stoveboard

HY-C Company, Inc.

Protect floors from intense heat, hot coals, ashes and soot that wood stoves can produce. Extend and protect the floor in front of a fireplace or place under other heating appliances such as kerosene, gas and electric heaters. These UL listed stoveboards may also be used as wall shields. A wall spacing kit is recommended for mounting all types of stoveboards. HCULSK includes necessary hardware and metal spacers to extend stoveboard 1" from walls, providing air space that helps protect combustible walls from heat and fire damage.

Item No.	Description	Pkg.	Wt.	Retail	Stocked
HCT2UL1848BL1	Hearth Extender, Black Oxide, 18" x 48"	1	12 lbs.	$110.99	Y

HCULSK	Wall Spacing Kit, 8 Metal Spacers	1	2 lbs.	35.99	Y

Perma-Chink
Acrylic Mortar Sealant

Excellent for exterior and interior use. Won't "flake" or "powderout" like conventional mortar. Perma-Chink is textured mortar made of pure flexible acrylic that adheres and stretches to maintain a tight seal eliminating heat loss and air infiltration. An excellent product for minor mortar repair. Professionals in the glass fireplace door business make Perma-Chink their choice for final finish grout work on custom and standard fit doors. Gray tinted formula. 12 tubes per case.

Item No	Description	Wt.	Retail	Stocked
AESTG224	Perma Chink Mortar Sealant, 11oz. tube	14 lbs.	$30.10	Y

Flitz
Metal Polish

Metal Polish

Watch oxidation, tarnish and rust melt away with ease. Flitz Metal Polish is a concentrated cream that is unequaled in its ability to clean, polish, deodorize and protect for up to six months. Unsurpassed for removing rust, tarnish, heat discoloration, lime deposits, hard water stains, fresh and salt water corrosion, oxidation, lead and powder residue, fingerprints, graffiti, flies, tar, tree sap and more! Safe for stove tops, window and door frames, leaded glass, antique jewelry and silver.

Soot Removers & Cleaners

2025-2026

Soot Sweep Remover

Lower the ignition temperature of carbon to effectively aid soot removal. Unlike competitive products, Soot Sweep doesn't contain sodium chloride which attacks iron or steel stoves. Use in non-airtight stoves or fireplaces.

Item No.	Description	Pkg.	Wt./Cs.	Retail	Stocked
RT100	Soot Sweep Soot Remover, 1 lb.	12	14 lbs.	$9.36	Y
RT100B	Soot Sweep Soot Remover, 2 lbs.	6	14 lbs.	18.65	Y
RT100S	Kwik-Shot Soot Stopper, 3 oz. Stick	36	10 lbs.	5.27	Y
	No mess, toss-in stick for easy chimney soot removal. Removes creosote while producing colorful flames.				

RT100S

Creosote Remover

Weekly application helps prevent creosote and soot build-up in chimneys. Catalytic action reduces accumulated deposits and lets fire burn cleaner. Not a substitute for regular thorough cleaning, but it makes that job easier.

RT97	Creosote Remover, 1 lb. Powder	12	14 lbs.	$12.80	Y
RT98	Creosote Remover, 2 lb. Powder	6	14 lbs.	26.69	Y

Chimney Brushes

RUTLAND®

Fires are great when they're blazing away in stoves and fireplaces. But if there's a fire roaring up your chimney, you have a real problem. Surprisingly, 8% of all home fires start in the chimney. Talk to people who have had chimney fires and they will tell you about the telltale "freight train" inside the wall - the ominous sound of burning creosote.

Creosote is the highly combustible tarry residue that collects on chimney walls. The more softwood you burn or the "cooler" the fire, the more buildup you get. The best way to prevent chimney fires is to reduce creosote buildup. Using a creosote fighter on a regular basis is a good first step and is quick and easy to do. But there is no alternative for a thorough chimney cleaning- and for that you need a good chimney brush.

Rutland has chimney brushes for every shape and size flue. Extensions allow you to reach from rooftop to cellar cleanout where you may be amazed at the pile of creosote that's been scrubbed off by the brush's stiff bristles.

Pellet Stove Brushes
For cleaning pellet stoves, turns sharp radius without getting caught in tight corners. Brush filament is 0.020" poly.

Item No.	Description	Pkg.	Wt.	Retail	Stocked
RT17409	3" w/10' Flexible Handle	4	3 lb.	$33.21	Y

TLC Chimney Brushes & Accessories

RUTLAND®

2025-2026

Introducing the new Torque Lock Connector (TLC) from Rutland! This quick disconnect system is easy-to-use and will save you time. The TLC system is being used on all of Rutland's brushes, rods and tools, eliminating the need for adapters! The large button is easy to press with gloves on, also its recessed design helps avoid unexpected disconnects.

Fiberglass Extension Rods - TLC
Rods snap together to extend into chimney.

Item No.	Description	Pkg.	Wt.	Retail	Stocked
RT59FT4	4' x .440" Dia. x TLC Connector	25	20 lbs.	$20.92	LTSD

ProFlex Heavy Duty Polypropylene Rods - TLC

Flexible extension rods that can reach where others can't. Use TLC SweepsAll brushes with these rods.

RTPFT785	5' x 7/8" Diameter	10	12 lbs.	$48.94	LTSD

Extension Rods

ProKleen Steel Extension Rods - TLC

For use with TLC ProKleen brushes, these rods have snap-lock fittings that allow them to rotate in either direction while connected to 1/2" drill without coming apart.

RT57ST25	30" x 1/4" Diameter	10	8 lbs.	$37.76	LTSD

Adapters

Allows you to use older style brushes and rods with the new TLC system.

RT38FTF	3/8" Female to TLC Female	6	2 lbs.	$11.32	LTSD

Polypro Chimney Brushes - TLC
Use on coal and oil flues where the acids deteriorate steel bristles. 0.075" Poly filaments resist acids.

ChimneySaver Water Repellent

ChimneySaver prevents costly damage to masonry chimneys by reducing water penetration by 99.9%. It also allows water vapor to pass through the chimney quickly while in use to prevent condensation inside the brick; which can lead to spalling and freeze/thaw damage to the masonry. ChimneySaver comes in a water-based and a solvent-based formula, the solvent-based is recommended for chimneys that have been previously treated.

Item No.	Description	Qty/ Pkg.	Wt./Cs.	Retail	Stocked
SSCS5W	(300035) Water-Based, 5 Gallon	1	46 lbs.	$300.30	LTSD

ChimneySaver

Brick and Mortar Cleaner

This powerful cleaner removes most stains from masonry, including rust, efflorescence and mortar splatter. It accomplishes this (when used as directed) without releasing toxic fumes, burns or streaking or damaging metals like aluminum. It comes in a 2.5 gallon container that covers 50-150 sq. feet depending on the surface.

SSSMC25	(300133) Brick & Mortar Cleaner 2.5 Gallon	1	24 lbs.	60.20	LTSD

Brick and Mortar Cleaner

CrackMagik Crack Sealant

CrackMagik prevents water from entering small holes and cracks (up to 1/8") that can't be treated with water repellents. Use it to treat these small defects and avoid the expense and time of tuckpointing.

SSCRMG	(300018) 1/2 Gallon Pail with 1" and 4" Application Brushes	1	5 lbs.	158.90	LTSD

CrackMagik

FlashSeal

This easy to use flashing repair system forms a flexible waterproof membrane when dry. It will adhere to asphalt shingles, metal flashing, brick and other chimney and roofing materials. It remains permanently flexible and comes with a 7-year warranty when used with the FlashSeal Reinforcement Fabric. The 1 gallon pail will cover 2-4 average chimneys and the Reinforcement Fabric will last 4-6 pails of FlashSeal.

SSFS1	(300049) FlashSeal - Black 1 Gallon	1	14 lbs.	104.10	LTSD
SSFSF	(300052) FlashSeal Reinforcement Fabric 6" X 50'	12	13 lbs.	36.40	LTSD

FlashSeal

CrownSeal Flexible Coating

Premixed, trowel grade, elastomeric coating that when cured (24 hours) forms a flexible waterproof membrane to protect chimney crowns and other areas that need protection from water.

SSCRS2	(300023) 2 Gallon Container	1	16 lbs.	151.50	LTSD
SSCRS5	(300025) 5 Gallon Container	1	38 lbs.	397.90	LTSD

Thermostats & Thermocouples

Thermocouples

Item No.		Pkg.	Wt.	Retail	Stocked
RS785002	Automatic Pilot Re-light Kit	15		$274.00	Y
	Automatically re-lights pilot light. 9V DC. Includes ignitor and reset button assembly. Designed for use on water heaters, boilers, space heaters, gas fireplaces and other appliances where the problem of pilot outage may occur. Battery not included.				
RS1970024	24" Thermocouple (10 to 24 Millivolt)	20		21.00	Y
RS1970036	36" Thermocouple (10 to 24 Millivolt)	10		25.00	Y
	Lock washer equipped coaxial connection resists loosening during vibration or change in temperature. Extended cold junction for greater voltage output potential. Allows for installation to most pilot burners. Copper tube for corrosion protection, stainless steel tip for longer life.				
RS1960027	27" Low Mass Thermocouple	10		38.00	Y
	Low-mass or quick dropout thermocouple usually found on applications requiring O.D.S. on the thermo safety. Also found on many LP gas applications that require a quick dropout of the thermo safety if there is a loss of pilot flame. Standard thermocouple threads, will not fit metric threads.

Gas Regulators & Controls

820 Nova Valve

The 820 Nova Millivolt combination gas control is an On/Off gas valve suitable for use with gas fireplaces, log sets, gas space heaters and other gas heating equipment. Millivolt control permits complete regulation of the appliance, without requiring main supply voltage. The 820 Nova control features: three-position control knob ("Off/Pilot/On"), thermo-electric flame failure device with re-start interlock, servo controlled pressure regulator, manual "Hi/Lo" adjustment, millivolt operator, pilot outlet with flow adjustment screw, inlet and pilot filters and inlet and outlet pressure test ports. Nova Kit replaces 820/634/652/704/635/706/655/644/654. For use with 3/8" inlet, use RO4886 fitting for 1/2" inlet.

885 Proflame Technical Data

Gas inlet and outlet connections	3/8" - 18 NPT ANSI B 1.20.1
	5/8" - 18 SAE J512
	9/16" - 24 UNEF ANSI B 1.1
Pilot outlet	7/16" - 24 UNS - 2B ANSI
Installation position	Upright, LTD horizontal (Never Upside Down)
Gas families	Natural Gas LNG, LPG
Maximum gas inlet pressure	1/2 PSI
Outlet pressure setting range	LPG: 10" to 6.4" w.c. (SIT code 0.885.001)
	NG: 3.5" to 1.6" w.c. (SIT Code 0.885.002)

VALVE DESCRIPTION

① On-Off solenoid EV1 terminals
② On-Off solenoid EV2 terminals
③ Inlet pressure test point
④ Outlet pressure test point
⑤ Pressure modulator device
⑥ Pilot adjusting screw
⑦ Pilot outlet
⑧ Gas inlet with protective seal
⑨ Gas outlet with protective seal
⑩ Ground connection
⑪ Mounting holes

Ritchie
Testing Equipment

| Item No.	Description	Retail	Stocked
RE78060	Ritchie Complete Gas Pressure Test Kit	$155.00	Y
	Accurately sets manifold pressure for Natural or LP gas. Easier to use than a manometer and more compact too! Special sensitive diaphragm gauge is calibrated in inches of water column. A tube nipple allows easy connection to system manifold. Range: 0-35 inches water column.		
RE78064	Brass Adapter	10.00	Y
RE78080	Ritchie Gas Test Gauge, 0-30 lbs.	66.00	Y
	Easy-to-read pressure test system for leaks in new construction. Leak is indicated by pressure drop on gauge. 0-30 is in 1/4 lb. increments to meet some inspection regulations. 3/4" NPT pipe end.		
RE60991	MINI-SPLIT TOOL KIT, Includes: Heat Pump Manifold, 60" PLUS II Hoses (RYB), 1/4" with 1/4" flare fittings, Eccentric Cone Flare Tool, Hex Key Set, Vacuum /Charge Valve with side port 5/16" x 1/4" x 1/4", Adjustable Metric Torque Wrench 16, 17, 21, 22, 24, 26, 27 and 29 mm flare nuts, Tube Cutter and Deburring Tool	1,159.00	Y

RE78060

Screws

Installation Screws

Item No	Description	Retail	Stocked
SR20TORX	#20 Torx with Tamper Proof Divet	$15.00	Y
	High quality, long lasting nut setters with magnetic tip for professional work.		
MPHW7X1/2Z	Malco 1/2" Zip Screw w/1/4" Hex Head, 1,000 Count	45.00	Y
	Combination lead double thread design, single starting thread machined down to very tip of screw point, instantly penetrates and engages in heavy gauge sheet metal and layered light gauge. A consistent, heat treated, sharp and tapered point that won't mushroom or break. Installers using lower speed, battery power drills will especially save time, effort and battery life by using the Zip-in Screw.		
SR1	#7 x 1/2" Black Pipe Screws, "Streakers", 200 Count	22.00	Y
SR2	#7 x 1/2" Black Pipe Screws, "Streakers", 500 Count	54.00	Y
	Professional-looking, 1/4" hex head screws with fast drilling "Streakers" point. Permanent, black oxide finish. 1/4" hex head driver required, not slotted.		
SRDURA	#7 x 1/4" Short Screw, 100 Count	7.00	Y
	For attaching pellet vent or gas vent together. Will not penetrate inner liner and requires 1/4" hex head driver.		
SR3	#8 x 1/2" Stainless Steel "Tek" Screw, 50 Count	14.00	Y
SR4	#8 x 1/2" Stainless Steel "Tek" Screw, 100 Count	28.00	Y
	A self-drilling stainless screw for relines. Requires a 1/4" hex head driver.		
SR5	1/4" x 3/4" Steel "Tek" Screw, 25 Count	4.00	Y
SR6	1/4" x 3/4" Steel "Tek" Screw, 100 Count	16.00	Y
	Excellent for mounting glass fireplace doors and screens. This self-drilling screw drills up to 1/4" steel. Requires a 3/8" hex head driver.		
SR7	1/4" x 1/2", 1/2" Zinc Thread Cutting Screw, 25 Count	34.00	Y
SR8	1/4" x 1/2", 1/2" Zinc Thread Cutting Screw, 100 Count	136.00	Y
	Excellent for mounting glass fireplace doors and fireplace screens. 7/32" hole and 3/8" hex head driver required.		

Stove Pipe Anchor Screws

Keeps stove pipe firmly in place despite constant expansion and contraction from heat. Self-drilling, built-in drill tip makes for easy one-step installation. Black oxide finish for permanent durability.

SR22	#8 x 1/2" Stove Pipe Anchor Screws, 200 Count	$28.00	Y
SR23	#8 x 1/2" Stove Pipe Anchor Screws, 500 Count	69.00	Y

Lag Bolts

For use with lead expansion shield to mount on masonry or directly drives into wood surfaces 3/8" hex head driver required.

SR11	1/4" x 1-1/4" Lag Bolt, 25 Count	8.00	Y
SR12	1/4" x 1-1/4" Lag Bolt, 100 Count	29.00	N

Lead Expansion Shield

For use with 1-1/4" lag bolt to mount on masonry. Requires 5/16" hole.

SR13	1" Lead Expansion Shield, 25 Count	$49.00	N
SR14	1" Lead Expansion Shield, 100 Count	194.00	N

MPM2007	Offset Cutting Zip Snips, Cuts Right Circles	2 lbs.	$78.00	LTSD
	For continuous cuts in sheet metal stock, round and square duct, stovepipe, aluminum and steel siding. These highly maneuverable snips are ideal for flush cuts and for cutting any angle, contour hole or pattern configuration. 5" diameter cuts right and left angles and straight lines. Cuts up to 22-gauge stainless steel. 1.25" cut length.			
MPM2002	Aviation Snips, Cuts Right	2 lbs.	64.00	LTSD
	Dual serrations, adjustable crossover disk, jam proof latch, lifetime spring and ergonomic handles. Cut length 1.375".			
MPTB1026	Tube Bender, 3/8" O.D. Spring	1 lb.	14.00	LTSD
	This budget priced tool is for bending soft tubing to any shape without collapsing walls. One end is flared for quick tube insertion and removal. Made of special spring steel that is zinc finished.			
MPMSH14	1/4" Magnetic Hex Chuck Driver	1 lb.	10.00	LTSD
	1/4" hex opening, 1/4" shank diameter, 7/16" nose diameter, 1-3/4" overall length.			
MPMSH516	5/16" Magnetic Hex Chuck Driver	1 lb.	11.00	LTSD
	5/16" hex opening, 1/4" shank diameter, 1/2" nose diameter, 1-3/4" overall length.

2025-2026

"Nothing is more important than proper draft for the safe and clean operation of your fireplace."

ENERVEX has manufactured chimney fans for more than 40 years. Only the best materials and components are used. Housing is made of cast aluminum and all other components are made in stainless steel to assure a long product life and reliability. In addition, all product components, including the motor, are produced by ENERVEX according to certified quality assurance which provides the user with products of uniform quality. ISO 9001 certified. 2-year guarantee against mechanical problems. 10-year warranty against corrosion perforation. 6-month unconditional guarantee.

With ENERVEX's extremely quiet and reliable chimney fan system, your draft problems will be cured. It doesn't matter whether you have a wood or gas-burning fireplace, stove, oven or BBQ!

- Easy to Install - The Chimney Fan is easy to install. No mess from tearing down or rebuilding.
- Low Operating Cost - The Chimney Fan is very energy efficient. In most cases, it consumes less energy than a regular light bulb!
- Easy to Operate - Every Chimney Fan is virtually maintenance-free. All that is required is a periodic cleaning - something your chimney sweep will take care of during the annual chimney inspection.

Chimney Adapters

Use ENERVEX steel chimney adapters when installing the ENERVEX chimney fan on the top of a single, double or triple wall steel chimney. Adapter is designed to slide into the steel chimney for a tight fit. The outer diameter of the collar is 1/8" smaller than the inner diameter of the steel chimney and has a 5" deep collar. Made of 16-gauge, 304 stainless steel. 2-year warranty. Steel chimney adapters for air cooled chimneys are also available. Please call AES Inside Sales for more information.

Parts & Accessories

Item No.	Description	Retail	Stocked
EX301.1001.0000	Proven Draft Switch, 0.08" - 0.60" W.C.	$318.57	Y
	An adjustable differential pressure switch for proven fan operation, suitable for switching a circuit on, off or over on changes in actual pressure value relative to the set reference value. The reference value (switching point) is adjusted on a setting wheel provided with a scale. Pressure setting range is .08" W.C. to .60" W.C. Suitable for air, flue and exhaust gasses. Maximum load 5 amps @ 120-240VAC. 2-year warranty.		
EX301.0105.1200	Fan Speed Control, 5 Amp	91.96	Y
EX301.0108.1200	Fan Speed Control, 8 Amp	223.33	Y
	Used in conjunction with all single-phased ENERVEX chimney fans to provide variable speed control of split-capacitor motors. Control is accomplished by reducing the line voltage to the motor and using only the necessary energy to maintain the desired volume of air flow (fan speed).		
EX501.0100.0000	Dilution Bolts, RDS, Set of 4	77.73	N
	Used to lift the fan above the chimney or adapter. Designed to obtain a vibration-free operation and allow dilution air to enter the fan to cool off the flue gases. Used for application where the gas temperature or exhaust exceeds 575°F. 2-year warranty.		
EX302.0100.1200	ADC100 Universal Control w/Variable Speed & PDS-1	1,123.21	Y

Skamol
SKAMOLEX FIREBOX LINER REPLACEMENT PANELS

Skamolex firebox liner replacement panels allow you to reline fireplaces and stoves with ease. The panels can be easily cut with everyday wood working tools, even a hand saw will do the job. Simply measure the needed dimensions, and remembering to allow for 1% heat expansion, cut and then insert the new panels into the firebox. These panels withstand heat up to 2012º F and have been tested to UL 127 standards. Panels measure 24" H x 39 5/8" W x 1" D.

Greenfan
REPLACEMENT FIREPLACE BLOWERS

greenfan™

2025-2026

A customer walks into your store and says that the blower in their (insert brand here) gas fireplace just went out. This is no problem if they bought their fireplace from you-just pull a replacement blower off your back shelf. But what do you do if they have a brand you don't carry or their fireplace is more than 10 years old? Greenfan has the answer for you and your customer.

With just 5 Greenfan replacement blowers on the shelf you can replace blowers on all these brands: *Enviro, Heat-n-Glo, Heatilator, Lennox, Regency, Napoleon, QuadraFire, Archgard, Empire and Continental.* They also have blowers available for Majestic and Monessen fireplaces as well! Instead of having to make a weeks worth of calls to find an outdated fan kit to pull a blower from, why not have the Greenfan on the shelf and have your customer on their way in less than 5 minutes?
