The RH Peterson Company provides the highest possible degree of durability which is why Associated Energy Systems has been offering Real Fyre™ products to its customers for over 20 years.

Real Fyre™ logs are formulated from kiln-fired ceramics, superior refractories and the best expanded shales and aggregates. Their durability has been proven for over 50 years of use in American homes. The high temperatures of a burning fireplace pose no challenge to the beauty, strength and durability of Real Fyre™ Gas Logs. They meet nationally recognized standards and earn approval of local and national building code authorities throughout America.

Real Fyre™ Gas Logs duplicate the detailed bark pattern and texture of real wood through a unique molding system. Knot holes, peeled bark, forked branches and other natural enhancements add realistic appearance. These logs are then colored by an exclusive immersion/filtration system. Many of the logs are then hand painted, detailed or accented to provide the most realistic looking logs available. Real Fyre™ logs are sized and matched to create a balanced natural wood stack that works with Real Fyre™ burner systems to provide an authentic wood fire appearance. Yet, there is more to Real Fyre™ Gas Logs than their beauty.

Because the logs are manufactured with non-conductive ceramic, they reflect more radiant heat off their surface. This helps the gas burner system burn more efficiently. The heat chamber, a development of the Peterson Company, consistently radiates more BTU's of heat into the room without the hot and cold zones normally created by the varying size of a wood fire. The heat chamber also adds to the warmth and Real Fyre™ Gas Logs promote cleaner burning.

Instant on/off finger tip control provides immediate flame at the simple turn of the valve. No more messy ashes to clean up, no storing of dirty firewood and no more dangerous flying sparks with Real Fyre™ Logs. Creosote build-up in the chimney, a common cause of fires, is also eliminated by the clean burning gas fuel.

Real Fyre™ Gas Logs feature a Lifetime Warranty. Vented Burner Assemblies feature a 5-year Warranty.

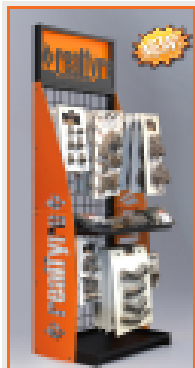

**Showroom Display Materials**

Showcase your Peterson Real Fyre™ Gas Logs and the important accessories with these attractive, 3-Tier Gas Log Displays. Made of sturdy steel construction, 66"H x 32"W x 17"D assembled. Log shelves support sets up to 24" wide, have a 1" lip to prevent sand, embers and lava granules from spilling on to your floor. The shelves are also just right for displaying a small amount of hearth accessory stock.

**New Products for 2025**

**Charred Cinder Collection (Pg. 5)**

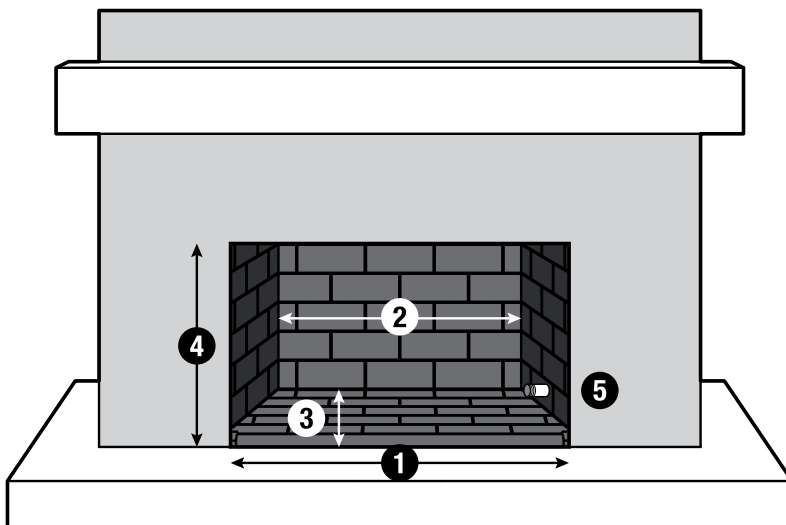

Headlining the Real Fyre Premier Series gas log sets, the new **Charred Cinder Collection** offers a dramatic fire presentation highlighting exposed embers, décor chunks and unique burnt detailing complemented with black embers. The model CNDO oak version leads the way with birch (CNDB) and split oak (CNDS) units following later this Spring. Available in three sizes (18,24,30), the Charred Cinder models are compatible with G4, G45 and G46 burners in natural gas and propane versions.

**Flame Enhanced Logs (Pg. 5)**

Building on the popularity of the optional Flame Enhancer Kit accessory that boosts flame and radiant heat, the new model **FE Flame Enhanced** Gas log sets include all the components for an enhanced set-up in one SKU. Multiple sizes available in five popular log styles (CHD, CHMJ, SDP, RDP, CHMBW), each set includes the Flame Enhancer Kit components (ceramic fiber-infused back log, aluminized steel panel and black embers) along with the regular logs for that size. These combinations offer more economical ways to provide flame enhanced performance in a new installation.

**Measuring your fireplace for a Real Fyre Vented gas log set.**

**1** Front width (in inches)

**2** Back width (in inches)

**3** Depth (in inches)

**4** Height (in inches)

**5** Gas stub location

- How far does the gas stub extend into the firebox?
- What is the distance from the gas stub to the firebox floor?

For special sizing requirements exclusive to each burner system, refer to its particular Owner's Manual.

**NEW**

**Flame Enhanced Collection**

- **FE Flame Enhanced** gas log sets include all the components for an enhanced set-up in one SKU (ceramic fiber-infused back log, aluminized steel panel and black embers) along with the regular logs for that size.
- Multiple sizes available in five popular log styles, the Flame Enhanced models are compatible with **G4 and G45** burners in natural gas and propane versions.

**New Products for 2025**

**G23 Fyre Spheres Burner System (Pg. 3)**

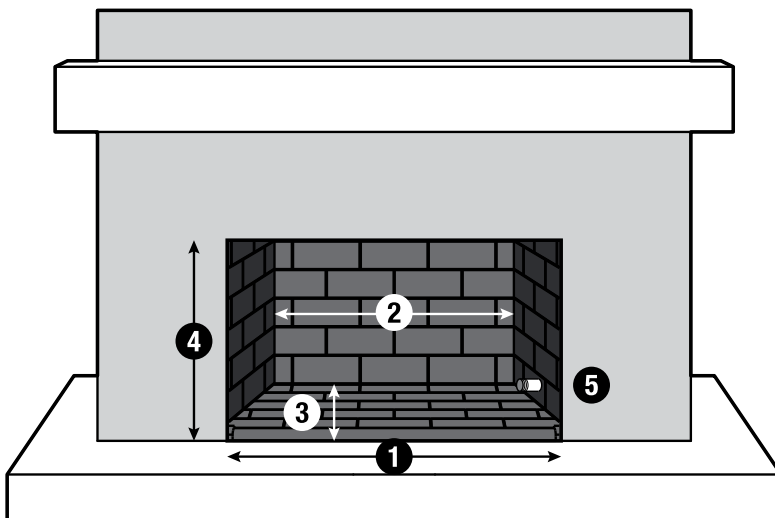

Designed to showcase the modern look of Fyre Spheres in a vent-free setting, the new G23 burner system comes in popular 18” and 24” sizes with a choice of ODS equipped and ANSI certified millivolt or electronic remote control. The 4” diameter model US4 Carrera Marble, Epic Black and Graystone spheres are designed specially for pinned placement on the burner pan. Choose natural gas or propane models.

**ODG15 Outdoor Only Burner System (Pg. 5)**

The new ODG15 is the first Real Fyre ventless burner system designed for outdoor installation only. Certified to the ANSI Z21.97/CSA 2.41 outdoor decorative gas appliance standard, the ODG15 is offered in 24/30” size with remote operated electronic controls (-02 or -2VT) and your choice of Foothill Oak or Foothill Split Oak log sets. The burner pan is constructed of stainless steel and comes in either natural gas or propane versions.

**Measuring your fireplace for a Real Fyre Vent-Free gas log set.**

- 1** Front width (in inches)
- 2** Back width (in inches)
- 3** Depth (in inches)
- 4** Height (in inches)
- 5** Gas stub location
  - How far does the gas stub extend into the firebox?
  - What is the distance from the gas stub to the firebox floor?

For special sizing requirements exclusive to each burner system, refer to its particular Owner’s Manual.

**Vent-Free Burner Systems - G19A, ODG15 & G8E Series**  **2025**

**G19A Series Burner Systems**

- **G19A Series Vent-Free Gas Logs sets are ANSI Certified and include:** Uniquely Designed Vent-Free Gas Logs • Certified Vent Free Burner with pre-assembled Remote Control Valve & ODS Safety System • Custom Grate • Connector Kit • Glowing Embers • Lava Granules. \*Remote Systems include basic Transmitter and Receiver.
- Shipped for use w/ Natural Gas - specify if for Propane Gas by adding a "P" to the model number (e.g. G19A-24/30-15P).
